

Description

The strainer may be used on all types of pipelines to collect granulated foreign substances and contaminants collected. It can improve the clearance in the medium, and prolong the life of valves and other equipments. It is suitable for wafer, petroleum and steam.

Material

Body: gray cast iron, cast iron, ductile iron

Filter: stainless steel

Stretchy connection: carbon steel with zinc coated

O-ring: NBR

Technical Specification

Nominal diameter: 50~400mm

Nominal pressure: 1.0/1.6/2.5Mpa
